RJV 24" x 8'-0" s/s 600# Ansi 1440 psig design single separator / single metering
2500# x 600# 1.0 MM BTU indirect fired glycol lineheater

Complete Package Includes

- **RJV** 24" x 8'-0" s/s 600# ANSI 1,440 psi 3-phase vertical mistex separator, 100° F design temp, 1/16" corrosion allowance, inlet diverter, float hood baffle, 4" thick, 9# / cu. ft. density, 304 SST mistex mesh pad fabricated all in accordance to ASME codes Sec VIII registered in the provinces of Alberta, Saskatchewan, & British Columbia
- 4" 2500# RTJ inlet and 4" 600# outlet connection points
- **Nuflo** 4" 600# simplex meter run C/w orifice plates
- **COE** 2-pen, 0-1500 psig, 0-150 "WC chart recorder c/w battery operated chart drive
- **COE** pneumatic chemical injection pump c/w 3/8" plunger
- **Norriseal** liquid level controller & liquid level control valve
- **DynaFlo** 2" 2500# control valve, c/w pressure controller
- **Westeel** 1000 gallon steel double walled methanol tank / 500 gallon corrosion tank
- **CCI** 24,000 btu 12 volt DC heater c/w lockable battery cable cabinet
- **RJV** 8" x 32" s/s fuel gas scrubber & stand c/w high liquid level fuel gas shut off valve
- **Wika** liquid filled, dual scale pressure indicators
- **Trend** dual scale temperature indicator
- **RJV** 48" dia x 15' long glycol heater / 16" stack & fire tube / 16" glycol expansion tank
- **RJV** urethane injected panel style building around separator and piping
- **RJV** 8" WF / 6" CH skid / 3/16" checkered plate / 2" spray-on underskid insulation
- Entire area of boiler covered with 1-1/2" fiberglass insulation & 28 gauge metal cladding
- **Scada equipment also available**
